ABOUT S2S RELAY:

In 2011, an estimated 400 people ran across the state of Florida in the fifth annual Sunset to Sunrise Relay "Florida's Original Long Distance Relay." Relay teams of 12 organized themselves into two vans, and then proceeded to take turns running and driving for two days across the state. Sunset to Sunrise Relay is not only for fun - it is the ultimate challenge for runners of all skill levels from the beginner to the solo runner, in all age ranges, and from all over the country. S2S brings together people who share a passion for running and are ready to follow the sun over 180 miles. The course wraps itself from the Gulf Coast in Fort Myers, around Lake Okeechobee, to Jensen Beach on the Atlantic Coast. Businesses throughout the route benefit from the hundreds of participants and spectators as they stop to fuel up, replenish food and water supplies, dine at local eateries, and stay the night in hotels.
